My Check Image Keeps Getting Rejected, What Am I Doing Wrong?

For security reasons, there are certain aspects of each check that must be clearly identifiable with each photo image. If any of these aspects are not clearly identifiable, your check may come back rejected. Here are a few tips for best photo quality:

1. Lay the check on a flat, well-lit surface. If the check is crumpled or folded, do your best to flatted it out.
2. If you have a check with a light background, be sure to take the picture on a solid, darker surface to show contrast between check and background.
3. Be sure that all four corners of your check are entirely within the frame that is provided on the screen.
4. Hold steady. Be sure that the check is not blurry.
5. Avoid shadows.
